What is the Child Center ?

If someone has hurt you, the Child Center is a safe place where you can talk about anything that has happened. Here, you can share your story, your feelings, and your worries in complete privacy

You will meet kind and caring people at the Center, all committed to making you feel comfortable and understood. They are here to listen and support you and your family through everything

We also offer assessment, treatment, and continuous support to ensure that you and your family can feel safe and happy again

What are the benefits of the Child Center?

No need to repeat your story: You only have to tell your story once to a friendly person here, instead of repeating it many times in different places

Quick help: We work quickly to make sure you get the help and care you need right away. Everyone at the Child Center talks to each other so we can take the best care of you

Everyone works together: All the people who are here to help you—like doctors, police, and counselors—work together as a team. This makes everything go smoothly so you can feel safe and get better faster
